

Reduce your operational cost and risk and increase your gas turbine flexibility and reliability

Networking

BE CONNECTED

- ▶ Be part of ETN's GT community and global users network
- ▶ Extensive networking opportunities with members in different areas of expertise at European and international level
- ▶ Access to a wide network of OEMs, Independent Service Providers and Research Institutes
- ▶ Exchange operational experiences, knowledge and expertise with the entire GT value chain
- ▶ Attend and benefit from tailor-made GT courses
- ▶ Attend recognised global GT events at reduced conference fee

Strong User Voice

BE HEARD

- ▶ Be part of a strong and coordinated user voice
- ▶ Participate in the yearly high level user meeting for the coordination of priorities
- ▶ Participate in engine-specific user groups
- ▶ Ensure the development of solutions to critical issues

Policy & Market Information

BE INFORMED

- ▶ Access to a wide range of policy briefing reports
- ▶ Receive policy and legislation updates related to the GT industry
- ▶ Access to valuable information on the latest market developments

Project Development & Cooperation

BE INNOVATIVE

- ▶ Access to the technical and strategic advice provided by the ETN Project Board
- ▶ Influence the topics in ETN's R&D Recommendation Report
- ▶ Initiate and participate in various international and cross-functional collaboration schemes: studies, R&D projects, best practice guidelines, development of standards
- ▶ Participate in Steering Committees in ETN's Projects

Technical Committees

BE INVOLVED

- ▶ Receive up-to-date information on the users' needs and requirements in key markets
- ▶ Exchange knowledge and best practices in priority technical areas
- ▶ Explore ideas and discuss any GT related issues with experts in the field
- ▶ Receive state-of-the-art information from the R&D community: technical papers, reports and project results
- ▶ Technology watch in key areas

Powerful Platform for the Gas Turbine User Community

Network with Users Worldwide

High Level User Meetings

Take part in the yearly High Level User Meeting to discuss issues of strategic importance to the GT market, with both O&G and Power Generation industries

Engine-specific Meetings

Participate in ETN and GTUsers.com User Group Meetings on specific engines

ETN
Global

Access to GT Experts

Access to experts from the whole GT value chain

Projects

Participate in international and cross-functional projects
Standardisation, Best Practice Guidelines, Feasibility Studies, R&D Projects and more

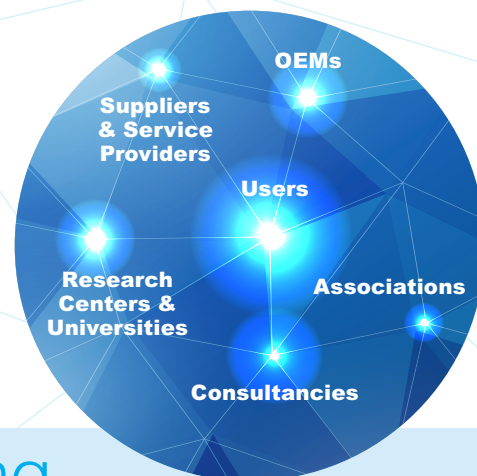

Educational Courses

Tailor-made courses in areas of importance to the Users, given by selected experts from the R&D and industry community

ETN member categories

How to become a member

You can apply for membership by completing the [membership online form](#) available on the ETN website or by sending an email to info@etn-gasturbine.eu.

OEMs, exhaust system vendors, operators in both power generation and oil & gas were all at the same place to discuss exhaust systems issues. This was a way for users to speak up and to be heard by OEMs and exhaust system vendors and this wouldn't have been possible without ETN.

Amélie Pesquet, Chair of ETN's Exhaust Systems Project, Rotating Equipment Engineer (Total)

ADGAS joined ETN to share experience and enrich our gas turbine knowledge. ETN's uniqueness derives from its platform of dynamic technical and operational expertise which can support ADGAS' vision towards operational excellence. We trust in ETN's top priority to strengthen the voice of the gas turbine users in order to push for resolving critical issues at lowest effective cost. Together we can grow stronger and achieve more.

Hatem Rashad, Mechanical Reliability Advisor (ADGAS)

ETN is a platform where OEMs can interact with Users and have an open dialogue about what are the demands and the new trends in the industry. It is a platform where users can raise their demands and influence the way OEMs develop their product. Due to this, ETN has great value for us and we would also encourage others to join. The more users we have the more power we have.

Dieter Krapp, Senior Vice-President (OMV International)

What ETN members are saying
