10th International Gas Turbine Conference GAS TURBINES IN A CARBON-NEUTRAL SOCIETY

Virtual conference: 11-15 October 2021

Sponsorship opportunities for conference and expo

This conference will provide an exclusive opportunity for your company to show your commitment and contributions to the development of a carbon-neutral society

The International Gas Turbine Conference (IGTC) is a well-established and renowned biennial conference, organised by ETN, bringing together the gas turbine user community (utilities, industrial and oil & gas users), manufacturers and suppliers, the research community and policymakers.

Our objective is to raise the awareness of how gas turbine technology can contribute and enable the required energy transition, and to highlight from power generation, oil & gas and industrial operators' perspectives the development needs to successfully do so. The conference also provides an opportunity to emphasise and discuss with policymakers the importance of a supportive regulatory framework that will incentivise the required investments.

The IGTC will highlight global opportunities for gas turbine technology in key markets, as well as present, publish and disseminate the latest R&D developments, and address achievements that will help to accelerate the transition to sustainable energy systems by adapting the gas turbine technology to carbon-neutral fuels, hybrid power systems and alternate heat sources.

For manufacturers, suppliers and service providers the conference provides an unprecedented opportunity to reach out to the global gas turbine user community and to highlight your commitment to provide the required energy solutions and services.

For our sponsors we offer:

- **High visibility** for your company before and during the conference, as well as after the event in ETN communications
- **Opportunity to communicate** your expertise and commitment to fulfil the user community's demands
- **Opportunity to connect** with and reach out to high-level decisionmakers from the user community, the gas turbine industry and international governments from around the world
- **Virtual networking opportunities** at virtual rooms and exhibition to explore future partnerships and cooperation

Review the available opportunities on the following page and secure your space by filling out the attached form.

For the IGTC 2018 the following organisations were sponsors and partners:

GOLD SPONSOR

Solar Turbines
A Caterpillar Company

SILVER SPONSOR

CONFERENCE EXHIBITORS

MEDIA PARTNERS

BENEFITS	Sustainable transition sponsor	Carbon-neutral OEM sponsor	Enabling technology / service exhibitor	Carbon-neutral solutions supporter
Visibility	Priority display	Priority display	Secondary display	Tertiary display
Logo in the preliminary and final conference programme	*	*	*	
Logo on the conference website with a link to the company website	*	*	*	*
