### **USER GROUP STEERING COMMITTEE MEETING (SGT-A35 & LM2500):**

ETN held a meeting for the User Group Steering Committee members on 31 January 2018 in Florence, Italy, in conjunction with the BHGE Annual Meeting. The Steering Committee performed a review and prioritisation of reported GT related issues on these engines in preparation for the forthcoming meetings in April (SGT-A35) and June (LM2500). A meeting among the partners of the LM2500 Bearing Project also took place on 1 February at BHGE facilities in Florence. The next Steering Committee teleconference call will be held in the beginning of March.

### **EUROPEAN STRATEGIC ENERGY TECHNOLOGY PLAN (SET-PLAN) UPDATES**

#### **SET-Plan Action 5 – New materials and technologies for buildings:**

On 31 January 2018, the temporary Working Group meeting was held in Brussels, where ETN presented the main research topics of micro-CHP technologies for buildings, according to the inputs received by the ETN members.

#### **SET-Plan Action 6 – Energy efficiency for industry:**

ETN attended the Working Group meeting on 26 February 2018 in Brussels, where the Working Group members discussed the organisation of the workshop taking place in Brussels in June 2018. This workshop will gather together experts to discuss the potential cooperation programmes to be funded at national level with the support of the EU. If you would like to join this workshop, please contact Ugo Simeoni at [us@etn-gasturbine.eu](mailto:us@etn-gasturbine.eu).

#### **SET-Plan Action 9 – Carbon Capture Utilisation and Storage:**

ETN attended the Working Group meeting in The Hague on 30 January 2018, where the Working Group members met to monitor and discuss the [Implementation Plan](#).

### **ETIP SNET GOVERNING BOARD MEETING**

ETN attended the ETIP SNET Governing Board meeting on 24 January 2018. The meeting discussions focused on the development of the vision document for the Smart Networks for Energy Transition, which is being developed at a Working Group level. The representatives of ETN in the WG3 – Flexible Generation are contributing to the development of the vision.
