

10th International Gas Turbine Conference GAS TURBINES IN A CARBON-NEUTRAL SOCIETY

14-15 October 2020 at Le Plaza Hotel in Brussels, Belgium

Sponsorship opportunities for conference and expo

This conference will provide an exclusive opportunity for your company to show your commitment and potential contributions to a carbon-neutral society.

The International Gas Turbine Conference is a well-established and renowned biennial conference, organised by ETN, representing the whole gas turbine community. Its objective is to raise the awareness of gas turbine (GT) technology development needs – from power generation, oil & gas and industrial operators' perspectives – and to explore and exchange ideas with GT experts from the whole value chain, attending from all continents. It also provides the opportunity to meet and discuss with policy makers the importance of gas turbine technology in future energy scenarios. The conference will highlight the energy market outlook in Europe and in key markets globally, as well as present and disseminate R&D activities and latest achievements for flexible, efficient, reliable and environmentally sound gas turbine technology.

What do we offer?

- **High visibility** for your company during the conference and publicity before & after the event in ETN communications
- **Presence** of high-level decision makers from international governments, the gas turbine industry and the user community, as well as GT experts from around the world
- **Networking opportunities** and a chance to explore future partnerships & cooperation
- **Attractive location** at a prestigious venue in the Brussels city centre

Review the available opportunities on the following page and secure your space by filling out the attached form.
