EUROPEAN MICRO GAS TURBINE FORUM

4<sup>th</sup> European Micro Gas Turbine Forum

11<sup>th</sup> & 12<sup>th</sup> October  
Brussels, Belgium

## Objectives

The [European Micro Gas Turbine Forum](#) is an initiative launched to foster the commercial deployment of micro gas turbines by setting the scenario where all stake holders have a platform to share knowledge and experience, collaborate, and discuss a roadmap to move the technology forward.

## Symposium

During this Symposium we aim to gather and share invaluable experiences, particularly since the COVID-19 pandemic. Keynote speeches from leading international speakers from academia and industry will take place on the first half day. This will lead on to a panel discussion by our speakers and concludes with a networking dinner.

## Organisation

**Prof. Abdulnaser Sayma** (Co-founder)  
Professor of Energy Engineering

## NextMGT

This year, we will be hosting the final scientific event of the “Next Generation of Micro Gas Turbines for High Efficiency, Low Emissions and Fuel Flexibility” [NextMGT](#) project which is funded by the European Union's Horizon 2020 research and innovation programme under Marie Skłodowska-Curie grant agreement No 861079.

15 Early-Stage Researchers will present project results and plans in a Pan-European Perspective on the second full day.

## Venue

The fourth iteration of the meeting will be hosted at Tangla hotel, Avenue E. Mounier 5, Brussels 1200, Belgium. The hotel is ideally situated close to Brussels International Airport.

The EMGTF meeting will take place after the 11<sup>th</sup> International Gas Turbine Conference (IGTC) organised by ETN Global.
