

Best practices document for air intake maintenance and inspection					
WG Name	Air Filtration	Chair	Olaf Brekke (Equinor)	Co-chair	Dominique Orhon (TotalEnergies)
Project lead	tbd				
Core team	tbd				
ETN officer	Giuseppe Tilocca				
Initiative description					
Scope definition					
- Establish an ETN best practice document for air intake maintenance and inspection					
Objective setting					
- Ensure optimum air intake system performance over the lifetime of a gas turbine package					
Expected outcome					
- Cost and energy efficient gas turbine operation by optimum air intake system performance					
Implementation of the activities					
Project execution					
-					
Project finances					
-					
Meeting schedule and dissemination					
-					
Deliverables & Milestones					
Deliverable 1	Establish project lead and core team			Timing	3-2024
Explain briefly.					
Deliverable 2	Establish, scope, plan and milestones			Timing	
Explain briefly.					
Milestone 1	Project start			Start date	
Explain briefly.					
Milestone 2	Project end			End date	
Explain briefly.
