

ETN Global student participation programme

Erika Rodriguez Aleman
City, University of London / Brunel University of London

Student Participation Programme

- Why?
 - ETN Global has a need for additional resources to implement its objectives
 - Students (Bachelor/Master/PhD) can offer support
 - Great experiences in the past

Student Participation Programme

- Open to all **students** enrolled in organisations within the ETN Global network working on **topics** that align with **ETN Global objectives**
- Volunteering basis programme
 - **Student agrees to a time commitment**

Student Participation Programme

- **Topic focused** – to align with student's interests
 - **Diverse tasks** ranging from working group participation to organisation/participation in online events
- **YEC** role as an **intermediate**
 - Students are **onboarded and supported** throughout the experience by the YEC
 - Assistance selecting tasks that align with their topic and professional interests

Student Participation Programme

- **Unique opportunity** for students
 - Immersion in the **turbomachinery and energy community**
 - **Work among professionals** in the field
 - Exclusive opportunities to participate in the organisation of influential events like **ETN Global webinars, IGTC, workshops, and AGM**

- **First call for interest will be this summer 2025!**

Student Participation Programme

- **Bachelor and MSc theses**
 - Define a **thesis topic in collaboration with ETN Global** to advertise at your institution
 - ETN Global aligns with the university for the **timeline and format** of the thesis
 - Topics that align with ETN Global objectives
 - Contact Giuseppe Tilocca via email gt@etn.global for more info
