## 1. Updates on the current activities

Nicolò Cairo (NC) provided a short overview on the status of the CCUS WG current activities:

- The webinar series is proceeding according to the original schedule. The next webinar is going to take place with MAN Energy Solutions on Wednesday, 18 June 2025. More information are available [at this link](#).
- The Master Thesis is being finalised. No presentations were given at this meeting.
- During the month of May, a small steering committee (Jens Walter (JW), David Peralta Solorio (DPS), Ward De Paepe (WDP), NC) defined the scope of the new Master Thesis on CCGT Efficiency penalty. The one-pager can be found [at this link](#).
  - o Paul DiMascio (PDM) suggests placing emphasis on the economics, as well as covering the heavy-frame gas turbines in this Master Thesis.

## 2. Horizon Cluster 5 Calls

NC presented a new Horizon Cluster 5 Call on “New CO<sub>2</sub> capture technologies”. More information on the scope, financials, and deadline of the Call can be found on [Slide 7 of the PowerPoint](#) and also [at this page](#).

Interest to join a potential consortium was expressed by Laurent Mariac (LM) from TotalEnergies (**only as Associated Partner**).

## 3. Next meeting

The next meeting will take place on **Friday, 27 June at 15:00 (CET)**.
